Tim Jordan, M.D.

*Behavioral pediatrician, author and international speaker and his staff
can create a customized day or overnight retreat to help your kids
understand and learn from each other.*

Call Anne at our office @ **636-530-1883** *today* to learn more about setting up our
experiential and meaningful retreats for students for your next school year!!!

Dr. Tim Jordan at a Teen retreat.

With over 20 years experience in teaching kids and teenagers about these very important issues, Tim Jordan, M.D., Behavioral pediatrician, international speaker, author, and owner of Camp Weloki wants to help you make your school year even better. By investing a block of time in kids at the beginning of a school year, you can reduce the negativity, exclusion, backstabbing, teasing and bullying, violence and general disrespect for classmates. Let us assist your staff in creating a safe and more tolerant school environment.

Dr. Jordan has spoken at hundreds of schools in the St. Louis area and around the country and has found that when schools invest in this type of retreat, they see a huge difference throughout the school year. Teachers spend too much time today on discipline vs. learning and they often feel drained. When students feel safe, accepted and included, they are most open and able to learn. Let us assist your staff in creating a safe and more tolerant school environment!

Call [636-530-1883](tel:636-530-1883) and learn how we can customize a retreat or workshop to meet your needs at your school!
